

April 5, 1960

Mr. Zelph Calder
251 South 3rd East
Vernal, Utah

Dear Mr. Calder:

It has been brought to the attention of the State Engineer's Office that you are diverting water from a diversion point located on Beeler Creek (Simons Creek) into the Matt Warner Reservoir.

This office has no record of a diligence claim, application, or change application covering the above described diversion point, nor is it included in the priority schedule of rights on Pot Creek. Therefore, it is ordered that no water be diverted from said diversion until you can establish a right to cover this diversion.

For your information, you will find enclosed a letter to Mr. Nielson concerning this matter.

Yours truly,

Wayne D. Criddle
State Engineer

RCM
DJ/svd

cc: David Rasmussen
Pot Creek Water Commissioner
